Reds Fail In Bid To Regain Hill

Allied Planes In Dogfight Eighth Straight Day

U S EIGHTH ARMY HEADQUARTERS, Korea, Oct 29 — (AP) — Screaming Chinese Communists three times today charged an Allied-held hill mass southeast of Kumsong but failed to regain the positions Allied forces took three days ago

A frontline dispatch said the pre-dawn attacks kicked off in company strength at 1:30 a. m. (11.30 A. M. Sunday EST) and built up to battalion size three hours later.

Whooshing mortar fire pounded Allied infantrymen as the Reds rolled down a slope facing the U N held hills on the central front

On the Western front Allied forces slogged forward as much as 1,200 yards.

In the East they seized a hill and gained up to 1,000 yards after turning back three separate night attacks.

In the air Sunday, Allied and Russian-made jets battled for the eighth straight day. The Fifth Air Force said one Red MIG was shot down and another destroyed in three battles involving 64 U. S. Sabre jets and 160 enemy jets.

Fifth Air Force pilots Sunday night pounced on heavy enemy traffic columns and destroyed 235 vehicles. Pilots estimated they sighted more than 2,100. The heaviest movement was along the Sinanju - Pyongyang - Sariwon - Kumchon supply line.

On Saturday night pilots reported they destroyed more than 236 of 3,000 Red vehicles brought under attack.

Kumsong, 30 miles north of Parallel 38 and onetime enemy strong point, has been neutralized, an Eighth Army staff officer said.

Same Story: U.N., Chinese Fail To Agree

MUNSAN, KOREA, Oct 29—(AP)—Allied and Communist negotiators failed again today to make any progress toward agreement on location of an armistice buffer zone in Korea.

"Today's discussions were completely inconclusive," the official U.N. spokesman announced.

Sub committee of the main armistice delegations met 3½ hours in Panmunjon. They scheduled their sixth meeting for 11 a.m. tomorrow (9 p.m. Monday EST).

Each side has proposed a demarcation line. The U N wants it generally to follow the current battle line Mostly in North Korea.

The Reds want the Allies to pull back as much as 15 miles, giving up such hard won positions as the Iron Triangle, the Punchbowl and Heartbreak Ridge. In exchange, they offered the Ongjin Peninsula in the West. The U.N. says that has little military value.

Fire Results In $5,000 Loss

Baled Cotton In Train Car Burns

Damage estimated at $5,000 resulted last night to a shipment of baled cotton which caught fire from an undetermined cause in a freight car at the Erie Railroad yards on Kenton avenue.

Damage to the car was estimated at $75. The estimates were reported by Fire Chief Owen Silfritt.

Firemen from the West Center street station worked from 10:10 p. m. to 1:15 a. m, playing water on the fire and tearing the bales apart to prevent smouldering.

Firemen from the Central station answered a call to the home of Royal Fox, 189 St. James St., yesterday at 6:02 p. m. when friction from the stuck belt of a cooler compressor caused smoke to fill the house.

By EMORY ANDERSON

The 20th Annual Harding Memorial Pilgrimage was held yesterday afternoon with Scouts and bands from the Harding Area Council taking part.

Cold winds and cloudy skies kept the parade spectators to a minimum but an estimated 500 persons attended brief ceremonies at the Harding Memorial which followed the parade from the downtown area.

The parade formed at the Central Junior High School at 2 p.m. yesterday. Parading troops and bands marched at 2:30 p.m going east on W. Center St to Main St. and then south on S. Main St to Delaware Ave. and then to the memorial.

The Harding and Bucyrus High school bands formed on each side of the area in front of the memorial, and scout troops stood in ranks opposite the bands.

Hot Debate Shaping Up Over UMT

Congress Seen Split On Long Range Protection Proposal

WASHINGTON, Oct 29—(AP)—Lawmakers today predicted hot debate in Congress next year over a government commission's call for universal military training (UMT) as long range protection in the "mortal struggle with Soviet communism"

The new National Security Training Commission's blueprint for UMT envisions eventual training of 800,000 American youths annually at a cost which could run to more than two billion the first year.

The commision's recommendations to Congress, made public last night, were submitted under terms of a 1951 law which extended the draft and approved the broad idea of UMT. That law, enacted last June, requires further congressional action to put UMT into effect.

The commission urged that the implementing legislation it rec-

Also included in the program will be the presentation of information concerning the bond issue and three tax levies which will come before the voters. Information will also be given about the one state issue to be voted upon in the coming election: "Shall the proposed amendment of the Constitution of the State of Ohio, relative to more than one Probate Judge to a County, be adopted?"

Area Counties Hit By Wave Of Burglaries

Believed Work Of Gang Operating From Columbus

Sheriffs of eight central Ohio counties joined forces today to investigate a wave of burglaries in their communities apparently committed by the same gang, The Associated Press reported.

All the burglaries occurred last week within a 60-mile radius of Columbus. They netted several thousand dollars in cash and merchandise.

Burglaries occurred in Hardin Union, Delaware, Franklin, Licking, Madison, Fairfield and Pickaway Counties.

Sheriff's Sgt. George Reynolds of Franklin County said he believed there was a "definite connection" He added the gang probably is working out of Columbus

Hardest hit was Amanda in Fairfield County where two grain elevators, a grocery and a garage were robbed Saturday night.

Delaware Burglary

8he same night 20 overcoats were taken from a Delaware clothing store This matched with a burglary in Plain City last week in which 30 suits were stolen.

Licking County officials also reported three burglaries in Newark Saturday night. A food market was broken into in Columbus the same night.

Burglars took $500 in Merchandise from a service station at Richwood (Union County) and

YOUNGSTOWN, Oct. 29—(AP)—William E. Lewis and Forrest Cavalier, opponents for the post of judge of the municipal court here Nov. 6, attended a meeting at which various candidates spoke. Later, Lewis went to another meeting and began passing out cards. "Remember this on election day," Lewis said He was doing right well handing out cards when somebody apprised him of the fact that the cards were Cavalier's. Lewis found he was wearing Cavalier's topcoat. Cavalier had Lewis's

Funds Needed for Operating Costs

Buildings Alone Don't Make School System

This is the first of a series of articles explaining the need for passage at the Nov. 6 general election of the four-mill tax levy for city school operating expenses The articles were prepared by a Citizens Committee formed to promote passage of the levy.

* * *

MARION CITIZENS can rightly be proud of the new school buildings they have voted to provide for their children. The State Street Junior High School completed last spring is one of the most attractive in Ohio. Recently a contract was let for the lunchroom at Edison Junior High School and bids are being received by the Marion Board of Education tomorrow for the construction of the new senior high school. New elementary school additions are being planned The board is awaiting word from Washington that steel will be allotted for these needed school buildings so that it can go ahead immediately with the building program.

Important as buildings are, they alone do not make a school system. Standing idle they are of no value It is only when they are operated for the instruction of children that they become one of the community's greatest assets.

Early in August representatives of 17 Marion organizations met with the Board of Education to discuss needs for the operation of our schools. These 17 organizations were the AFL, Altrusa Club, Business and Professional Women's Club, CIO, City Council of PTA's, City Union of King's Daughters, Civic Affairs Committee of the Chamber of Commerce, Exchange Club, Federation of Women's Clubs, Junior Chamber of Commerce, Junior Service Guild, Kiwanis Club, Lions Club, Manufacturer's Council, Marion Real Estate Board, Rotary Club, and Y Men's Club

The problems faced at this meeting grew out of the fact that Marion spends $171 per year for the education of its children whereas the average city in our size classification spends $212 per child. These costs are for the operation of the school program, not for the construction of new buildings.

After a careful consideration of the problems presented, the citizens group recommended that the Board of Education request a four-mill additional operating levy for the city schools for a period of four years at the general election Nov. 6. In later articles we will explain why this levy is needed so that the voters will have the facts before going to the polls to cast their ballots.

Two Shaken Up In Plane Crash

Noses Over at Marion Airport in Landing

A pilot and his passenger from Quincy, Ill, were shaken up and their plane extensively damaged last night when it nosed over in landing at the Marion Municipal Airport.

The pilot was Allen Lee Gronemeyer and his passenger Willis Slaton, an investment broker flying to Marion on business.

The plane, a single engine Cessna 120, touched the runway on landing at 7.30, bounced into the air and drifted to the sod at the side of the runway, where it touched the soft ground and nosed over, coming to rest on its back

Granemeyer and Slaton suffered scratched legs in the accident. The plane's nose was smashed, propellor broken and rudder damaged

Charles Reifsnyder, airport manager who reported the accident, said winds were northwest 17 miles an hour with gusts up to 21 miles an hour. The plane landed into the wind.

Seven Killed In Bus Plunge Of 40 Feet

Slab on Concrete Blamed; 12 Persons In Critical Condition

OAKLAND, Calif, Oct. 29—(AP) — A crowded Greyhound bus hit a loose block of concrete on a bridge approach early Sunday and plunged down 40 feet, killing seven and injuring the other 22 aboard.

The slab of concrete was torn from an abutment on the San Francisco Bay bridge approach by another automobile accident three minutes earlier.

The bus blew a tire when it hit, careened across the roadway and smashed through a concrete and steel safety railing with a flash of sparks It teetered a moment, then toppled down to railway tracks 40 feet below.

Crunch Noise

"It made a loud crunching noise when it hit below," said John Shepard, Oakland Tribune truck driver.

A 14-year-old bus passenger set his stop watch as the bus went over It was 5 22 a. m. Like everyone else, he was knocked unconscious by the crash.

Then, said Charles B. Taylor, who lived nearby:

"People were screaming 'get me out . . for God's sake get me out.'"

"One woman kept shouting, 'Turn off the ignition before we all blow up.'"

The crumpled bus lay upside down, flattened so badly some of its moaning injured were trapped for nearly two hours.

A priest said final rites for the dead as rescuers cut and pried out the living and the dead.

6 Face Draft In December

A December draft call for 1,467 men was announced today by the state selective service headquarters in Columbus with Marion County scheduled to furnish six men, according to an Associated Press dispatch.

Registrants selected for this call must have been born prior to Sept 1, 1932, unless they are volunteers. The November draft quota, previously announced, is 2,946. The October call was for 3,436.

The call for other counties in this area includes Crawford County, 7; Delaware County, 6; Hardin County, 5; Morrow County, 3; Union County, 3; and Wyandot County, 3.

Cuyahoga County will furnish the largest number of men, 287, while Holmes County will furnish only two.

No Sign Of Threatened Showdown

Reinforce Pickets Along Miles of Piers; Extra Cops Called Out

NEW YORK, Oct. 29—(AP)—A threatened showdown in New York's waterfront strike failed to develop today and miles and miles of docks remained closed tight after morning work whistles blew.

Reinforced lines of pickets marched in front of many piers. Announced plans of AFL longshore boss Joseph Ryan to send men "through or over" pickets didn't materialize.

Police, anticipating a possible violent climax to the 15-day dock strike, increased waterfront patrols to about 400 men along the Manhattan docks alone.

But as the morning advanced, the docks remained quiet while pickets, shivering in a chill wind, plodded to and fro.

There was no sign of the nonstrikers Ryan had threatened to send out.

"There's no trouble anywhere so far," a police spokesman said.

John J. Sampson, leader of the strikers' revolt against a new contract, said of Ryan's threat to send in non-strikers to crash picket lines:

"He said that two weeks ago The men will stay out as long as we are on strike."

He also scoffed at Ryan's charge that "strangers" were among the strikers.

"There are no strangers here," Sampson said. "The trouble is that Ryan is not close enough to the membership to know who they are."

Priest Leads Prayer

At one early-morning meeting of strikers, a Jesuit priest, Rev. John Corridan, led a group of about 150 in a prayer, in which he said in part:

"God grant that our government may order us back to work in honor. May God protect and preserve us this day! God bless you all."

Father Corridan, an associate director of the Xavier labor school, termed "lies" charges that Communists are influencing the strikers. He said "at least 99 per cent" of the strikers are non-Communists

Ryan, lifetime president of the AFL International Longshoremen's Association, yesterday wired President Truman, promising that his followers will not be kept from work by picket lines.

Ryan belligerently added that his men would "never go around" the pickets, but through them

At almost the same time, John Sampson, leader of the dissidents, sent a telegram to the President urging creation of an "emergency impartial body" to review the strike

Sampson said he would urge the men to return to work if Mr. Truman acted, but the wildcat leader maintained his opposition to the new work contract between the ILA and stevedore employers

There was no immediate reply from Washington to the two telegrams.

However, a top White House official said he had received definite word that dockers would return to work today in response to President Truman's appeal last Friday. The official, presidential assistant John R Steelman, indicated his information came from a federal mediator and was not related to the telegrams.

Statement Denied

Steelman's statement during an NBC television interview brought a denial and this comment from Sampson "Applesauce."

Mr Truman's plea for a return to work in the interest of national defense had been rejected by the strike committee.

The dispute has tied up more than 100 ships here and has halted movement of all but military cargoes, and even defense shipping has been crippled. Passenger vessels are moving, but most travelers have had to carry their own luggage.

Between $300,000,000 and $350,000,000 worth of merchandise has accumulated on piers and in waterfront warehouses.

Stevedores in Boston also joined the movement. There have been sporadic outbreaks at Portland, Me, Philadelphia, and Baltimore against working ships diverted from New York and Boston.

Kiwanis Club Hears Talk On Israel

Columbus Man Tells History Of New State

Dr. B. Abramson of Columbus, who just recently returned from a trip through Israel and other Mediterranean countries, spoke to the Marion Kiwanis Club on "The State of Israel," at the club's weekly luncheon meeting Thursday at Hotel Harding.

The speaker was introduced by Max Birnbaum, program chairman for the day.

Reviewing the background and history of the Jewish people, Dr. Abramson explained the establishment of Israel is the fulfillment of a prophesy.

He discussed the many sides of the Jewish claim to Israel, stating that Israel belongs to the Jewish people through historical claim and also through their work and finance. Regarding the Arab-Jewish fight back in history, he said, Israel was successful mainly "because its people were fighting for what is right, proving that right always triumphs."

Cites U. S. Help

After World War II, Dr Abramson told his audiences, only Uncle Sam gave the Jewish refugees protection. He added there were two places they wanted to go after the war instead of returning to their homes, either to Isreal or the United States. Most of them, he said, went to Israel.

At the start of 1951, Dr. Abramson said, there were one and a half million people in Israel, and this number is expected to be increased to about 2 million by the end of this year.

Discussing the conditions he found while on his trip, Dr Abramson said many persons are living in tents. "But," he added, "the future for Israel is great because its democratic government is the only such government in the Middle East." He concluded with the statement, "Belief and faith in American Democracy will always be the strength of the United States and Israel."

Shows Pictures

Dr. Abramson also showed colored motion pictures taken while on his tour.

Guests of the club were Paul H. Myers of Dearborn, Mich., and Dr. M. M Weinbaum, L. F. Rentz, Sam Birnbaum, Harry Weintraub and Merle Zieg, all of Marion.

Ninety army divisions were needed by the United States during World War II to participate in the defeat of the Axis powers.

FRED J. MILLIGAN

Milligan To Seek GOP Nomination In May Primary

Fred J. Milligan of Columbus, a native of Upper Sandusky and former state director of commerce, today announced he will be a candidate for lieutenant governor of Ohio at the Republican primary next May.

Mr. Milligan, a frequent speaker in Marion, said his announcement was in response to a request from Republican leaders of the 8th district, which includes Marion County, that he seek the office.

He served as assistant attorney general of Ohio under former Gov. Bricker from 1933-36 and later became director of commerce.

A veteran of World War II, he is former state commander of the AMVETs and is a past president of the League of Young Republican Clubs of Ohio. His public career began at Ohio State University where he was dean of men in 1930-33. He is now a practicing attorney in Columbus.

Radio and Television

By JOHN CROSBY

Broadcasters Take Stand on Man-Eating Shark

There is nothing like a code of ethics for broadcasting to make everyone's conscience feel better. Bad taste eludes codes. Good taste is baffled by codes. Creative effort is frustrated by codes. Genius is stifled by codes. Still codes keep the dirty words off the air; they have the effect of mollifying the parent-teacher societies and you can have them impressively printed, bound in red leather and keep them around the office as a constant reminder that the broadcaster is unalterably opposed to incest.

John Crosby

Bearing all this in mind, the National Association of Radio and Television Broadcasters met in Chicago and endorsed another code which, as an old scholar of codes, I should say is fully as pious and ineffective and altogether worthwhile as all the other codes I have ever read. In addition to incest, the broadcasters came out, four-square, against the advertising of phrenology, palm-reading and race track tip sheets — three of the livest issues confronting our time. According to the code, you can't call a broad an alley-cat and, come to think of it, you can't call her a broad either. Not on television. Not any more.

* * *

THIS SWEEPING curtailment so moved Harold Fellows, the president of NARTB, that he issued a proclamation which brought tears to my eyes. "They (the broadcasters) have displayed a determination to visit American families as they would visit their neighbor's hearthstone," he declared, ringing like a gong. I have no intention of going into the rest of the prohibitory or restrictive aspects of the code in detail beyond reassuring all of you that the sanctity of matrimony is suitably upheld and the evils of drug addiction are suitably condemned.

Let's pass on to the positive aspects of the code, where lie the weaknesses of all codes. There are a few positive declarations. The broadcaster is abjured to keep in mind that his community has cultural and educational needs and to feed it these commodities along with Hopalong Cassidy. He is reminded that children's moral, ethical and social ideals should be kept in mind while selling them corn flakes They are urged to air public events, controversial issues and religion. That sums up the "thou-shalls" which are out-numbered by the "thou-shall-nots" about forty to one These sectors are expected to stimulate as much cultural and educational activity on the air as have all prior codes, which is to say, none at all.

* * *

THE CODE was quite frankly passed to head off Sen. William Benton's bill before Congress, which would set up a citizens advisory board to keep an eye on what is and—more especially—what isn't on television. The moment the bill made an appearance the broadcasters set up an organized hue and holler that this constituted government censorship of the air which it most certainly does not. Benton's got much more sense than that. Recognizing the deeping native American repugnance toward any hint of government censorship or interference, Benton proposed merely a board of 11 respected private citizens who would report to Congress and the Federal Communications Commission on what television was doing and, more importantly, what it wasn't doing.

The board would have no powers. It could only advise. But the broadcasters don't even want that. Eleven citizens, probably all famous names, if duly appointed and blessed by Congress, could cause a terrible ruckus among the rest of the citizens simply by pointing out that television was devoting about 1 per cent of its efforts toward anything resembling culture or education or religion or ethics or good music. The advisory board, heaven forfend, could point out innumerable deficiencies in the television diet which the broadcaster, always sensitive to public opinion, would have to fill.

Inside Labor

By Victor Riesel

WASHINGTON

NOT until 1954—a year later than we planned—will this country be able to fight an all-out, global war or fully defend itself against an all-out atomic attack.

That's what President Truman and his highest military, diplomatic and civilian chiefs of staff told 65 carefully selected men the other day in a closely-guarded, studiously unpublicized session during which our top command met its critics face to face.

Victor Riesel

Since Mr. Truman was talking — not writing — to his critics, it was a warm and genial, though not comforting, conference. The 65 men who listened were labor, industrial and religious leaders, so they knew that outside the spacious, high-ceilinged room in the old State Department building, the country was jittery. The strike front was crackling with news that soon many of our ports, our sprawling railroad system, the steel and electronics industries and the coal fields might be paralyzed. Labor was angry. Management bitter.

Against this sizzling backdrop, the brass who run the nation on top met the grass-roots people who lead it down below.

* * *

MOST COMFORTING words came from the man with the highest respect of the group—soft spoken Gen. Omar Bradley. We are inflicting terrific damage on the Soviet war machine and its Red Chinese manpower, he told them. Then, knowing well what his listeners wanted most to hear, the general offered the government's explanation for its failure to bomb the Manchurian bases of the Red Chinese air fleet.

Soviet war materiel being rushed into North Korea is not being manufactured in Soviet Manchuria, he disclosed. It is being produced deep inside Russia and has to be transported thousands of miles to North Korea. Therefore, it is our strategy to wait until the same materiel rolls across the Northern Korean-Manchurian line in costly Red convoys before we destroy the supplies and the trucks. This throws trip-hammer blows at the entire Russian productive and transport systems and the skilled labor supplies inside the U. S. S. R.

Furthermore, Bradley reported, the Red air force cannot affect ground warfare since it can't get through to attack the actual battle lines themselves.

* * *

Then came Charles E. Wilson, in his outspoken, table-pounding style, to say that the government had just been too optimistic in setting up its production goals. Instead of hitting the peak of full rearmament in mid 1953, he said, in effect, it would take a year or so longer — perhaps even until 1955.

We'll make it, he said, but the country will have to decide whether it wants deep freezers, new television delights or austerity and sacrifice. But for the while he will try to juggle both a peacetime and warlike economy, giving us refrigerators as well as rockets. But he didn't appear too hopeful. Apparently his vote was for austerity.

Here, it seemed to the C.I.O. leaders present, Wilson was quietly admitting their early criticism was justified. For a year now, the C.I.O has been saying (and will say it more bluntly at its convention sessions starting Nov 5) that the entire defense production program is poorly planned. C.I.O. has claimed that an early, slow motion issuance of defense orders has delayed delivery of vital shooting stuff as much as two years from the date of contract C.I.O. brain-trusters, looking deep into the factories which employed their many millions of members, have charged that failure to retool existing automobile plants in favor of a policy of building new facilities for tanks, for example, has lost valuable and bloody time.

* * *

TO THAT CHARGE hovering over the session, though unspoken, Defense Secretary Lovett apparently replied with the skilled indirection of high office. He pointed out that we could make 40,000 to 50,000 war planes this year, but it would be foolish to be stuck with old style craft in this day of swift developments in supersonic speeds.

It was a small group and Mr Truman was at his pal-in-the-parlor best. He even praised Congress—saying that it had acted late, but well. And that with both Houses, as well as with the world powers, he had to use persuasion, not force. Many people have a false idea of the power of an American president, he said, grinning. To back him, came Dean Acheson, suave and urbane, with a report that the U. S. was succeeding in ringing the Soviet Union with pro-American nations from the Arctic to Turkey on the Black Sea. This, too, was a long matter of persuading nations that what was good for America was good for them, the Secretary of State said.

The labor leaders left well satisfied. The industrialists said all they heard were apologies for what hadn't been done.

But one thing is certain, Mr. Truman will go out to the country before the country goes out on a jittery bender of strikes and squabbles.

IN TAFT CAMPAIGN. In Washington, Victor Johnson, former head of the Senate GOP campaign committee staff, prepares to take over as director of organization for Sen. Robert A. Taft's presidential campaign. After the Ohio senator had announced Johnson's appointment, preparations for a Taft-for-President headquarters were started.

Josephine Baker

By Inez Robb

NEW YORK

OF RECENT date there has been a somewhat querulous, choleric note in the voice of John Q. Citizen as he worked the country's duly elected officials over verbally. There has been a loud tendency to complain that the politicos are fiddling while Rome burns, that inaction is rampant and do-nothingness grips—and gripes—the land.

So it is a pure pleasure to report that New York's Mayor Vincent Impelliteri has taken the politicians off the hook. Hizzoner had scarcely debarked the other day from the ship carrying him home from his long vacation in Italy and Israel when, by golly, he did something decisive in spades.

Inez Robb

Impy, sometimes known as the mayor in absentia, no sooner hit land than he issued his first communique: Hizzoner announced in forthright manly fashion that he is going to boycott the Stork Club. This unique and fascinating declaration of principles has, as you can imagine, rocked the Stork Club set on its heels, of which it has a fair share.

* * *

THIS DECLARATION that the Stork Club is currently off limits, mayorally speaking, was occasioned by the protests of Miss Josephine Baker, the famed colored chanteuse Roger Rico, the French opera star now replacing Ezio Pinza in "South Pacific," and Mme Rico, that Miss Baker was rudely treated when all three tried to buy supper at the Stork Club a few nights ago.

The relentless, uncompromising action of Hizzoner is indeed inspiring and, since there are more voters in Harlem than in Stork Club, may eventually lead to its own reward. However, there are those who feel that Impy has made the supreme political sacrifice, above and beyond the call of duty, in banishing himself from the Stork Club.

After all, argues this faction, there are some prices too high to pay. And how will people know he is mayor if he doesn't go to the Stork?

* * *

AS FOR MISS BAKER, I can only say that I spent one of the most pleasant and memorable evenings of my life in her company in Marakkech, French Morocco, in 1943.

I was a correspondent in Africa at the time and when I went to the beautiful, romantic, rose-red city of Marakkech (at the foot of the Atlas mountains) an American Army officer kindly phoned his highness, El Mouli Larbi, own cousin of the Sultan of Morocco, and caliphate of the region, and asked him to give me the key to the city.

Scarcely had I reached Marakkech when a flunky delivered into my hands from his highness an engraved invitation for a soiree in his home two nights later. The soiree, the invite said, was in honor of Miss Josephine Baker, whom I had seen in the "Folies Bergere" in Paris but had never met otherwise.

On the night of the party, to my intense delight and surprise, I discovered that Miss Baker and I were the only women guests in a party that numbered more than 100 persons.

It was the Mohammedan idea of heaven in reverse, and just my idea of heaven.

Let me coin a cliche right now: the party was like something right out of the Arabian Nights.

* * *

EVERY SO OFTEN I MEET an Allied officer or diplomat who was there that night and we sit around and gab for hours about the beauty of the native house, the exquisite food and the marvelous troupe of Berber dancers and musicians brought down from the hills by our host to entertain in Miss Baker's honor and, incidentally, for us.

I remembered that Miss Baker looked superb in a red and green dinner dress and that she charmed everyone. It is foolish to think that two women in a dinner party of more than 100 handsome men are going to spend much time with each other. But I hope, if she remembers me at all, that Miss Baker thinks of me as pleasantly as I do of her.

If her presence in Africa seemed a little strange at the moment, everything came clear after France was liberated and the French government decorated Miss Baker for her work in the underground and gave her a commission in the French WACs, where she served till the end of the war.

Anyway, with or without the Stork Club vote, I think Miss Baker will always carry her own precinct.

Beggar's Night Treats Go To Needy Overseas

"It's a neat trick and a fine treat to collect needed articles for families overseas" is a growing trend for Halloween. The new idea for the traditional "Beggar's Night" preceding Halloween is intended to move the energies and enthusiasms of young people into a constructive channel, and is receiving support in Marion. The slogan for the effort appears on posters presented at the recent National Children's Conference.

Young people and children of Epworth Methodist Church will carry out Tuesday night the new form of celebrating Halloween by visiting homes to ask for many notion items such as pins, needles, buttons, soap, washcloths, children's socks or other pieces of clothing, and any other useful articles. The things collected will be taken to the church to be sent later to the American Friends Service Committee, overseas relief organization.

Saturday afternoon, children of Epworth Church, held a Halloween masquerade party at the church, bringing bars of soap to be sent overseas instead of being used to soap windows as a Halloween prank. More than 100 bars were brought for the collection, Miss Margaret Huffman, Epworth director of Christan education, reported.

Tonight, a group of Greenwood E.U.B. Church Youth Fellowship members will make a tour to homes of the church families collecting items for needy Koreans.

A Vital Difference

NOTHING would be more tragic for Republicans than to be set against one another by the jealousies of their leaders. The 1952 election, which will find the Democratic party split wide open, should find the Republican party's ranks closed. Otherwise, the two-party system will betray voters who firmly believe in its ability to offer a suitable alternative when an alternative becomes an imperative necessity.

In this respect, it must be pointed out that there is a vital difference in the thinking of Republicans backing the candidacy of Senator Taft for the G.O.P. presidential nomination and some who are backing Gen. Eisenhower, without the General's consent.

The Taft backers would be willing to support Eisenhower if for some reason their man failed to win the nomination and Gen. Eisenhower decided that he wanted it.

But it is by no means certain that all of the people booming the Eisenhower candidacy are as interested in the General's potential usefulness to the Republican party as they are interested in his potential usefulness as a means of keeping Senator Taft from getting the presidential nomination. Some of these are the same leaders whose antipathy for the Ohio senator, on the grounds that he would not let them dictate foreign policy, has been hurtful to his bids for the Republican presidential nomination on two previous occasions.

Gen. Eisenhower is reported to be keeping himself well informed about these efforts being carried on in his name. He will be well advised if he distinguishes between backers who want to help the country and backers who want to chop down Senator Taft.

All Victims Doing Nicely

THE highest hopes President Truman could have had for diverting popular attention from other matters by raising the issue of sending a full-fledged ambassador to the Vatican are materializing.

This stroke of political mischief does credit to the ingenuity of a Chief Executive who knows all the political angles there are.

The most charitable thing that can be said in Mr. Truman's behalf is that he is sharing with the United States Senate one of the prickliest of the hair shirts that comes with the White House. But since Mr. Truman knew his misery could not be relieved but only foisted on others by his appointment of Gen. Clark to be U. S. Ambassador to the State of the Vatican, his decision to act at this time must be ascribed to politics, not to impulse of statesmanship.

Nor will the political repercussions be confined to the United States. The church-state issue can get hot in some of the countries of Europe, where the United States has everything to lose and nothing to gain by involving itself in one of the Old World's oldest quarrels. If Mr. Truman's purpose was to do as much damage with the Clark appointment as possible, he can face the future in the serene knowledge that he pulled off a minor masterpiece.

Sugar Attracts Flies

THE prospect that a scandal a day may cut the political ground from under the feet of the Democratic party's next presidential candidate is more than a hazard in partisan politics.

It has been said for years that a national administration spending money at the fantastic rate reached in the Roosevelt-Truman era would need a miracle to keep some of the money from sticking to the wrong fingers. No one expected a miracle.

The question was not whether the thousands of jobholders for whom the party in power was responsible would be more or less honest than an equivalent number of Republicans. The question was how long that much money could be handled by anybody without gross irregularities and questionable practices.

The possibility of scandal developed in proportion to the growing rate of public spending. In others words, it was going to be realized sooner or later that one of the built-in hazards of a free-spending government was temptation to divert the wherewithal into improper channels.

There is no more occasion for surprise over a scandal a day in the wake of all those billions which have changed hands in Washington than there is when flies cluster on a sugar bowl in midsummer.

Who Was Small-Townish?

IT SEEMS strange now to recall the curiosity of the numerous small-townish persons who used to make periodic visits to the local railroad depots just to watch steam locomotives arriving and departing.

That day has long since been gone.

However, before we assume we have descended to the ultimate in sophistication, we must be reminded of the number who now venture to airports to gaze upon airplanes arriving and departing.

Those people who used to traipse to the depot to watch the trains weren't so small-townish after all. They were just keeping abreast of the times.

Some Astounding Details of Official Corruption

THERE have always been crooked men, wicked men, malicious men—and women, too—but that is no reason why the citizens of such a country as ours should condone corruption, subversion, betrayal. Nor should we permit ourselves to be governed by the gutter by default.

Day after day, reports appear of official misconduct. Internal revenue official's dishonesty, of RFC corruption, of the secretary to the vice president being involved in using influence, of police being associated with bookmakers — and what has been disclosed amounts to hardly anything. The story has not been told by half.

SOKOLSKY

And there is more than that. Take strikes — dockworkers' strikes, milk strikes, strike in munition plants, strikes that in present state of our country make no sense. Those 90,000 casualties in Korea did not strike.

There seems to be no use raising that argument. Strikers say that they are veterans too. Some say that they have sons in Korea. But still they strike. They tie up supplies to their own sons and to their neighbors' sons. And what they quarrel about ought to be, among civilized persons, adjustable not only in the private interests of individuals but in the national welfare. These men are not thinking clearly; most of them are misled by extraordinarily selfish so-called leaders who project themselves into every troubled situation. For instance, the very serious New York Dockers' strike began as part of a permanent feud between a man called Ryan and a man called Sampson, neither important to the needs of America.

* * *

THERE CAN BE no reason why Harry Bridges should play any part in the affairs of this country. He is not one of us. He does not belong here. He has been ordered deported and somehow he and his lawyers and politicians connive to keep him in the United States. The Department of Justice has been delaying since August, 1950 to bring his case on appeal before the courts, they, not he, applying for the delays. Who is interested in keeping this man, who has done this country no good since some misery brought him to our shores, in this country?

The association of Harry Bridges with John L. Lewis, and the Communists, particularly in the automobile, electrical and dockworkers' industries, can not be constructive for America in times like these. Since 1936 they have kept the relations between labor and management disturbed with such constancy that it is impossible not to wonder why they do it. The motive must be other than personal ambition; it must be deeper than that and more perilous.

It is difficult to understand why John L. Lewis, who hates Communists, can associate with them from time to time. He has never permitted Communists in the United Mine Workers but he brought them into the C.I.O. and gave them high office. He knew that such men as Lee Pressman and Len De Caux were left-wingers. He knew that 11 of his C.I.O. unions were being organized under the control of Communists. Yet he hated Communists. How is this to be explained?

* * *

WHEN LEWIS temporarily broke with the Communists, they were strong enough to have him thrown out of the C.I.O. Yet he is now back at the old stand, making deals with them designed to weaken the position of Walter Reuther in the United Auto Workers, so that Communists, associated now with Lewis, can gain control of that crucial union and industry.

No one can accuse John L. Lewis of being a Communist. But who can explain his conduct?

Obviously, it is impossible to depend on our politicians. They deal not with fundamental principles or with the issues in a situation. They count the votes. They measure the strength of pressure groups. They fear the violence of organized elements who answer all questions with picket lines, legal or illegal, with threats and intimidations. The police are generally instructed to ignore unlawful picketing lest they offend prospective voters. Party politics are paramount.

* * *

IT SIMPLY CAN NOT continue to go on that way without the citizens sooner or later taking matters in their own hands as they have done before in this country. And that is no solution for it can only mean more disorders, more confusion, more injustice and hatred.

Corruption breeds not only corruption but lawlessness. When those at the top of government are moral cowards, the worst elements in the population gain control. They risk greatly because they recognize the smallness of heart, the selfishness of those at the helm of government.

This country needs a moral revolution—and soon.

Back to Books

By TRUMAN TWILL

WITH NIGHTFALL closing in these evenings before the second cup of tea has been downed, there is time to get back at the books. On top of the pile last night was "God and Man At Yale" by William F. Buckley Jr. This one is going to set off a Las Vegas type furor wherever teachers get together.

Forget Yale, because this young man's thesis about education is as personal and intimate as what is going on in the nearest schoolhouse. It is simply that those who are in charge of educational policy are answerable to those paying the freight for education.

The latter have a right to know what they are paying for and a duty to squawk out loud if they are not getting what they specified. As far as Yale is concerned, the author points out that the freight-payers have been scamping their duty, because what they have been getting from many Yale instructors is atheism and socialism instead of Christianity and the dignity and rights of the individual. They did not ask for these things. If Yale University were to advertise in its catalog that it was pedding what thousands of students have been getting there would be the roughest rhubarb ever staged in the cloisters. Yet, in the name of academic freedom, which all too often these days is only a weasel phrase for license to try to overthrow accepted values of civilization, collectivists have been getting away with murder.

A teacher has a right to believe in socialism and to believe in atheism. But no teacher has a right to expect other persons to pay him for indoctrinating students with his own beliefs unless he was hired to do it. If a teacher gets so hypped on his pet ideas he cannot keep from being a zealot, then he should look for a job where his zealotry is part of the curriculum.

It is astonishing that there should be any controversy about this, yet there is. Somehow or other the nation has got abroad that children and adolescents are fair game for all zealots; that the mission of teachers who despise Christianity and free enterprise is to convert the impressionable young to their way of hating. And it is just as bad when the zealotry breaks out at the other extreme.

In a free country, everyone has the right to argue for a different point of view. But it does not say in the Constitution or anywhere else that people who want to argue for collectivism and secularism can do it at the expense of people who don't believe in those points of view and also at the expense of impressionable students who were not forewarned they were in for a full treatment of indoctrination disguised as education.

That is all Mr. Buckley, a recent Yale graduate, is trying to point out about his own university. But by the time he gets through, the same thing will have brought to the attention of all the alumni and taxpayers who support all schools, colleges and universities.

There is going to be a head-on collision betwen the idea that academic freedom means an irrevocable license to pop off irresponsibly and an obligation to prepare human beings to take their places in their own society, full of knowledge, empty of malice.

Frightening Spectacle

Preview of a War

By Raymond Moley

A RECENT issue of Collier's magazine is devoted to a piece of fiction that should never have been written. If written, it should never have been published. It is exactly the sort of thing that Soviet propaganda will use to "prove" that the United States is determined to conquer the world. There has been nothing like this since Orson Welles' radio show about the invasion from Mars.

The general title of this lurid affair is "Preview of the War We Do Not Want." A long list of people, many of them well known, are featured contributors. Most of them should have known better than to contribute to this collection. The major or "theme" article is by Robert E. Sherwood.

MOLEY

This anthology tells of an imaginary war with Soviet Russia, beginning in Yugoslavia in 1952. The United States is joined by principal U.N. nations in a declaration of war. "Hostilities" go on three years until Russia is crushed, occupied and completely set to rights according to the prescriptions of the Collier's authors.

* * *

THE GREAT CITIES of the United States are A-bombed with terrific carnage. Washington is practically destroyed. North America is invaded. Then we bomb Moscow and other Soviet centers. We land parachute troops in the Urals at a cost of 9,000 men. The slaughter drags on until Russia disintegrates into a state of chaos.

Commentators tell breathless, on-the-spot stories of our exploits. An artists provide sensational pictures of ruin and destruction on both sides.

The loss of life, civilian and military, is tremendous.

But after all is over and we occupy Russia, wonderful things are done by the conquerors. Art, religion, education and sports are introduced according to Collier's standards. And a Roman, or U.S.-U.N. peace, settles down for all time.

All this fits in very well with the stuff that Soviet Russia has been telling the world. We are, they say, war-minded. We are determined to use our power to destroy those who disagree with us and their forms of government and their culture. This text and these pictures can now be used to bolster their case.

* * *

IT DOESN'T MATTER that this imaginary war, according to Sherwood, et al., was started by Russia. In Soviet propaganda that part of the story can be blacked out. What they will undoubtedly do will be to use this bit of journalism to "show" what the United States plans to do.

Moscow Is Sincere, All Right

By WILLIAM L. RYAN

AFTER all these years of broken agreements, it seems strange to read that diplomats in Washington are speculating whether the Soviet Union is "sincese" in its latest utterance."

Each time Stalin makes a pronouncement, each time the Soviet foreign office puts out a thrust or a feeler, diplomats wonder whether Moscow is "sincere."

An elementary course in Stalinism would convince them that "sincere" is an odd word to apply to the present rulers of Moscow.

Washington dispatches quote the diplomats as expressing hope that the latest Moscow pronouncement might mean a four-power conference.

Perhaps that is just what the Moscow machinations mean. But it is nothing to express hope about. Moscow, they say, may now "agree" to a top-level meeting. There will be no four-power meeting unless the Kremlin considers that to its advantage. This will not be "agreeing" to anything. It will be a matter of tactics.

There are all sorts of reasons for supposing that a four-power meeting is up Moscow's alley. It would throw a monkey-wrench into the rearmament works, so far as Western Germany is concerned, for one thing.

Moreover, a four-power meeting would be a ready-made sounding board for Moscow's propaganda, which is blazing away on all fronts now about a pact of peace that would leave the Russians free to plot their course without the worry of a united front of democracies opposing them.

The Russians have been intent upon carrying out a program aimed at cutting off the United States from the rest of the world. If a four-power meeting will carry this program a step further, they will "agree" to it.

Our ambassador to Moscow says the Russians will respect nothing but power: "We can not negotiate with the Soviets when we are weak." This does not mean that we should purr soft words and timidly hope that Moscow will "agree" to a four-power meeting. From the experience of the past, it would seem that the only four-power meeting with any chance of doing any good would be the one that Moscow had to plead for.

The way the situation stands now, Moscow will wait for the proper moment, condescend to have a meeting, and once again foster the hope among strife-weary peoples that "the co-existence of two systems is possible." This phrase, in fact, is about due for another twirl on the international merry-go-round But by the very definition of Stalinist communism, there can be no such thing as peaceful co-existence.

Stalinism thrives on strife, and with the shape the world is in today, Moscow surely must be chortling. Few things could be more to the Kremlin's liking, for example, than the vast upheavals shaking the Moslem world all the way from Morocco to the Indies. Moscow sees in all this—and this is in its published prospectus for the future—the ripening of the old world for the day of Communist revolution.

The diplomats can stop worrying. If Moscow makes the gesture toward four-power talks, it will be sincere, all right. But many Americans won't relish that sort of sincerity.

Congress Quiz

Q—Is there anything in the President's new "security order" to keep officials from holding back information just because it would show them in a bad light?

A—According to a number of congressmen who criticized the order, it in effect would permit officials to suppress any information at will, even if its release had no effect on national security. The President denied this, pointing out his order applies only to information "which requires safeguards" to protect national security.

Marion County History Brevities

By EDNA S. DUTTON

Wyatt's Tavern on the old Military road was a place of importance in the early settling of Marion County. First settlers stopped at the Tavern to discuss with the landlord the advantages of the new country. Here were to be found Dutch, German, Scotch-Irish, Yankee, Puritan and Cavalier, many of them religious men of all beliefs. Many were so poor they did not even own a horse or a head of cattle.

We have cleared up the case of the pigeon which flew into the New York Stock Exchange the other day and was still there when we last heard of it. It came in to file its report for the first nine months of 1951, showing it had enjoyed one of the best years in history but never felt worse. The pigeon report (pigeonholed of course) said:

"During the first nine months of 1951 I received 1,234,501 kernels of corn and seed as against only 987,546 for the same period in the previous year. I took in 2,560,788 peanut kernels as against 1,965,432 for the same period of 1950. But all I had left after taxes was a balance of 635 bread crumbs.

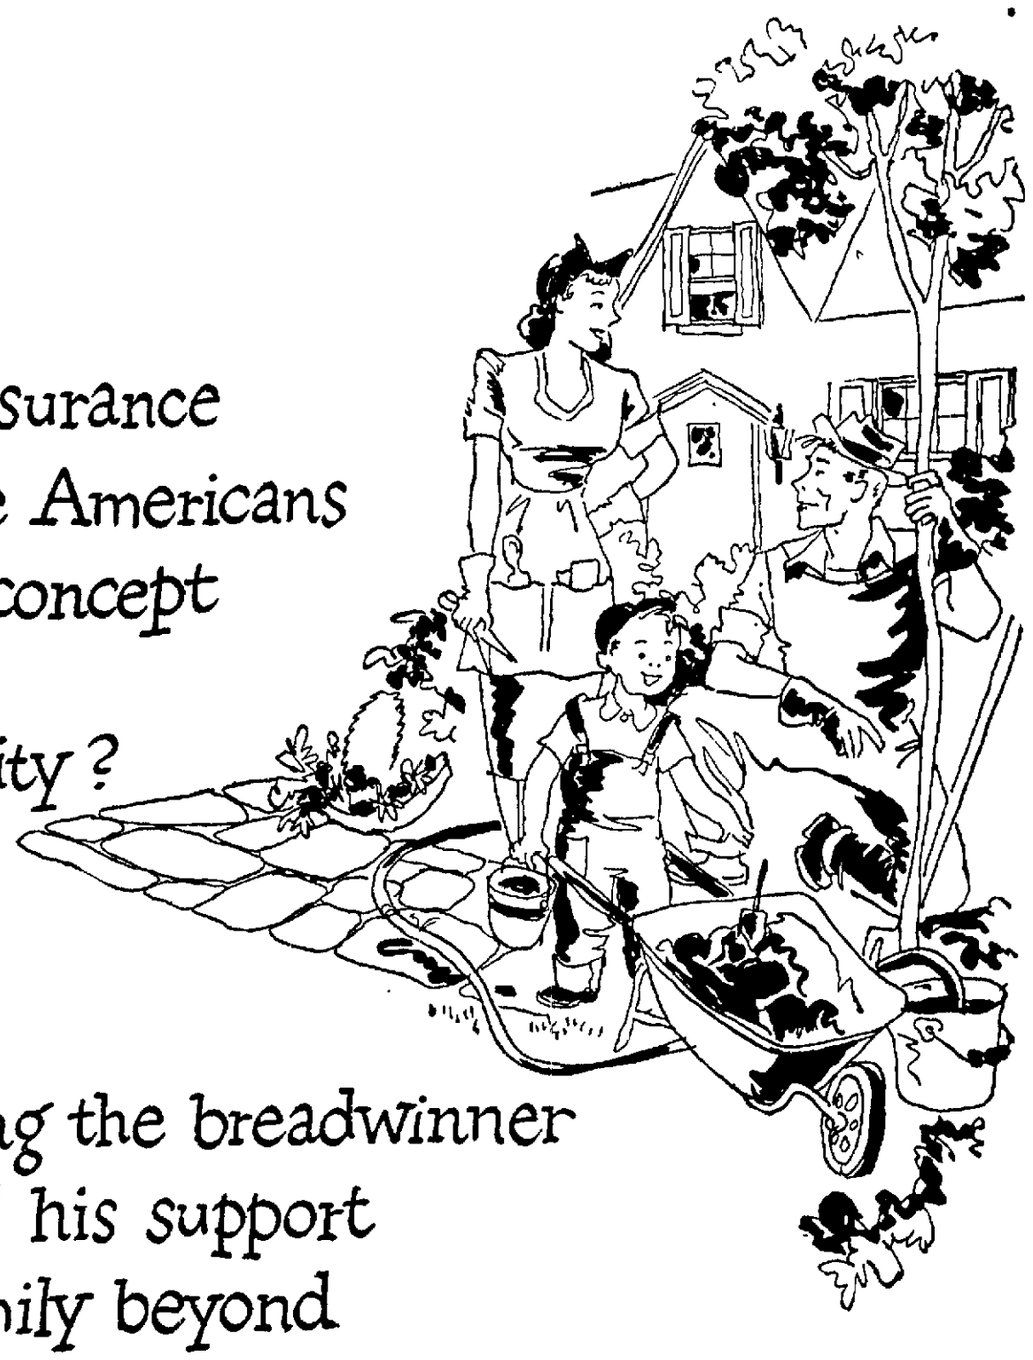
How
has Life Insurance
helped give Americans
a broader concept
of family
responsibility?



By enabling the breadwinner
to extend his support
of the family beyond
his lifetime

In millions of American homes today, the father is using life insurance to provide a regular income for his family beyond his lifetime.

The old concept of the breadwinner's responsibility to provide for his family for "as long as *he* shall live" is thus being broadened to "as long as *they* shall live" or at least for as long as they may need his support.

This broader concept is important both to America's families and to the economic life of the country which draws its strength from them. Its development has been aided by life insurance which is being used today to help replace the earnings of the breadwinners not only upon death but also upon retirement.

America's 83 million policyholders, through life insurance, are making America a better place to work in and to live in. They are providing for the future of their families and themselves. Their life insurance dollars are invested all over the country. And their healthy habit of thrift is one of the nation's strongest bulwarks against inflation.

several items from a Marysville tavern Friday.

Hardin County Hit

Burglars who entered four Hardin County business places some time Thursday night netted around $500 in money and merchandise. Two of the robberies were in Kenton and one at McGuffey and one at Mt. Victory.

Sheriff Clarence F. Brown and Kenton police who investigated, believe all four "jobs" might have been done by the same parties as the method of gaining entrance was similar in each case. In each case a door was broken open.

The largest "haul" was made at the Baker Texaco service station in Kenton where merchandise valued at $429 was missing. The burglars entered through the front door after breaking the lock.

A quantity of oil and antifreeze solution, value of which has not been estimated, was taken from the bulk plant of the Standard Oil Co. in Kenton. A rear door was broken open

At the Mt. Victory elevator $37 in money was taken and entrance also was gained through breaking a door. The burglars used the same method to get into the Wilson filling station at McGuffey where $17 in cash and an unestimated amount of merchandise was taken.

Sheriff's deputies believe burglaries and safe crackings in Madison and Pickaway County the night of Oct. 18 also were by the same gang.

Marion County was not touched in the burglary wave.

KEEPING IN TOUCH. Verdict Is Withheld In Doctor's Death

LYNN, Mass., Oct. 29—AP)—Authorities today withheld opinion in the death of Dr. Albert H. Covner of Nahant, pending a pathological report.

The 54-year-old heart specialist was found dead in North Reading woods Saturday, just 10 days after three 'teen-aged baby sitters took $18,000 from a strong box in his home for a big-time spending spree.

Medical examiner Thomas P. Devlin of Stoneham said the cause of death would not be known until an examination is completed on Dr. Covner's vital

DR. ALBERT H. COVNER

organs. He said the verdict may be made by tomorrow.

Police said a small bottle of nitro-glycerine, a heart stimulant, was found near the body and several types of pills were in his pockets.

One authority said the absence of any notes gives rise to a theory that Dr. Covner -- known to be suffering from a heart ailment — may have suffered a heart seizure and turned into the wooded lane where his body was found.

The spot is about 20 miles from Dr. Covner's home but only a short distance from the cemetery where his parents are buried.

Mrs. Covner said her husband was "terribly upset" about the entire matter, particularly because of several "disturbing" telephone calls he received about it.

Tickets for the Follies are now being sold at the Palace Theater, at the National City Bank of Marion, and by members of the Junior Service Guild.

Book of Job Will Be Dramatized At Epworth Church

A dramatization of the Book of Job will be presented by Mrs. Harold Andrews, professor of English at Ashland College, and a group of six young men from the college, Tuesday night in the basement auditorium of Epworth Methodist Church. The program, scheduled for 8 o'clock, is being presented under the sponsorship of Circle No. 4, of the W. S. C. S. of Epworth Church. No admission charge is being made and a voluntary contribution will be asked.

Mrs. Andrews is dean of the department of English. She is well known here having appeared before the Marion County Federation of Women's Clubs and at present is presenting a series of programs before the Shakespeare Club.

The Book of Job is used by Mrs. Andrews as the background of her presentation of "Drama Without Theater." The part of Job is read by Fred Sauer, a graduate of last June who is associated with the college as alumni secretary and instructor in speech. The three friends of Job, Eliphaz, Bildad and Zophar, will be interpreted by Lyle Lichtenberger, Harold Barnett and Phillip Lersch. Jerry Flora will read the part of Elihu, the young man. The last part, the Voice of God will be read by William Fells.

The Ambassador Quartet from the college will present a program of music as an introduction to the lecture and reading.

Painful cramps of "Monthly Periods" stopped or amazingly relieved

in 3 out of 4 cases in doctors' own tests!

• Women and girls who suffer from those functionally-caused cramps, backaches and headaches of menstruation — who feel upset and irritable on certain "particular days" — may often be suffering quite unnecessarily!

Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound gave *complete* or *striking* relief from such distress in 3 out of 4 of the cases tested!

Yes! Medical evidence shows Lydia Pinkham's thoroughly modern in action. It exerts a remarkably *calming* effect on the uterus — *without the use of pain-deadening drugs!*

The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you?

Take Lydia Pinkham's through the month. See if you don't get the same relief from the pains and weakness of "those days"! See if you don't feel better *before* and *during* your period!

Get either Lydia Pinkham's Compound, or *new, improved* Tablets, with added iron!

If you're troubled with "hot flashes" and other functional distress of "change of life"—you'll find Lydia Pinkham's wonderful for *that*, too!

Lydia Pinkham's has a quieting effect on the uterine contractions (see chart) which often cause menstrual pain!

When better automobiles are built BUICK will build them

Double Surprise for a lot of folks

EVERY time we publish the price of a Buick, it seems to surprise a lot of people, because they come in and tell us so.

They just can't believe that so little money buys such a lot of car—but it's a fact, as the prices published here will prove.

And that brings us to the second surprise—which is how much power and performance—how much comfort and room—what a long list of standout engineering features you get for the price.

Take power. You'll find that no other car at the price of the Buick SPECIAL pictured here delivers the horsepower you get from its high-compression, valve-in-head Fireball Engine.

Take comfort. The best thing to do is try the depth of its seats—their width—and the headroom you get in this Buick SPECIAL, and judge for yourself.

Take the ride. This Buick has big soft coil springs on every wheel, plus the solid firmness of a torque-tube keel—and the way this combination smothers the bumps is something that's hard to match in cars costing a thousand dollars more.

Take the way it steers. Buick engineers have given this light-handling beauty a special "front-end geometry" that almost does the steering for you—even brings the front wheels back to a straight line when you come out of a turn.

And you can add to all this Dynaflow Drive*—that puts magic smoothness into every mile you drive—and practically repays its extra cost by the way it protects the whole driving mechanism, and by the dollars it adds to trade-in value.

So if you have been hoping, some day, to own a Buick—what's holding you back? If you can afford any new car—better come in and see us now.

Equipment, accessories, trim and models are subject to change without notice. *Standard on ROADMASTER, optional at extra cost on other Series.

Allies Must Stay in Korea Collins Says

Chief of Staff Sees No Quick Pullout After Cease-Fire

SOMEWHERE IN KOREA, Oct. 29—(AP)— Gen. J. Lawton Collins, U. S. Army Chief of Staff, said today Allied forces "will have to stay in Korea for some time if a cease-fire is arranged."

Collins told newsmen it would "not be practical" to pull Allied troops out of Korea immediately if agreement on an armistice is reached at the Panmunjom negotiations.

He said the South Korean army "needs our help for some time to come."

"We want to get our men home as soon as possible, but it would not be done immediately."

New Rotation Plan

In Tokyo, Mrs. Anna Rosenberg, assistant secretary of defense in charge of manpower, told a news conference that 12,000 to 15,000 U. S. combat troops will be brought out of Korea by the end of next month under a new point-rotation formula.

She said Army, Navy, Marine Corps and Air Force men can go home if they have accumulated 37 points and if their replacements are on hand. She emphasized that the policy applied to combat troops, not rear echelon men.

This is how points are figured:

1. Four points monthly to men in the combat zone and at division headquarters.

2. Two points monthly to men on behind-the-lines duty and at corps headquarters.

3 One and one-half points monthly to single men in Japan since July 1950, and to all men, single or married, on Okinawa, Guam and in the Philippines.

4. One point monthly to married men in Japan whose dependents are in Japan.

Wounded Get Points

Point credit is given wounded men during hospitalization and others for time spent in confirmed prisoner-of-war or missing-in-action status.

Mrs. Rosenberg said National Guardsmen promised discharge within two years would start going home after 16 or 17 months duty as individuals, not as units.

The assistant secretary headed for home today after a seven-day tour of Korea and Japan. She said she has a long list of soldiers' recommendations to improve conditions.

TALKS WITH TRUMAN. U. S. Ambassador to Russia, Adm. Alan G. Kirk leaves the White House after he had called on President Truman to discuss "the situation in the Soviet Union." He told Washington newsmen that relations between Russia and the United States "show signs of turning a little bit in our favor."

Galion Man Injured In Traffic Saturday

Special to The Star

GALION, Oct. 29 — Arthur Decker, 74, suffered a fractured left knee when he was struck by an automobile Saturday as he was walking across a street intersection here. He was admitted to City Hospital for treatment and X-ray. Hospital attaches stated that his condition is not serious.

The accident happened at 7:10 p.m. at the intersection of North Market street and the public square. Leo Edward Fackler, 21, of Crestline was driving his car south at the intersection. Decker apparently walked into the path of the car.

Taft Calls U.N. Failure In Stopping War

CINCINNATI, Oct. 29—(AP)—Senator Taft (R-Ohio) declared here yesterday that the Korean war has "demonstrated that the United Nations is an utter failure as a means of preventing aggression."

The Ohio senator, a candidate for the Republican nomination for President, made the statement in a television (N.B.C.'s forum of the air) debate with Senator McMahon (D-Conn).

Their arguments became heated and loud at times as they debated the source of Russia's present strength

Taft declared the Democratic administration built up Russia while McMahon called Taft's statement "absurd" and added that "the strength of Russia comes from inside Russia itself."

Strike

(Continued from Page 1)

strikers range between 20,000 and 30,000.

Ryan's telegram to Mr. Truman claimed that stevedores returning to work have been "compelled to practically fight their way" through picket lines "augmented by several thousand strangers to our waterfront."

The ILA president said "various subversive organizations" were paying the "strangers."

Sampson, who did not comment directly on Ryan's wire, said a "communistic group" was soliciting for strikers, but without authorization of the strike committee.

Four Die In Cincinnati Fire

CINCINNATI, Oct. 29—(AP)—Three fires broke out early yesterday in a four-hour period in one block of a business-tenement district here and four persons died and 10 others were injured or burned.

All of the casualties occurred in the second of the trio of fires that wrecked the interior of a four story brick building which housed a drug store and tavern on the first floor and 15 apartments on the upper floors.

Fire marshal Richard Spelman said the arson squad would conduct an immediate investigation.

Await New British Govt. Word on Oil

WASHINGTON, Oct. 29—(AP)—Decisions anticipated from Britain's new Conservative government may determine this week whether there is to be an early settlement of the British-Iranian oil dispute.

The United States is believed to be urging action by both parties to arrive at an agreement while Iranian Premier Mohammed Mossadegh is still in Washington.

The question before the British government, according to informed quarters, is whether to negotiate on terms which Mossadegh has indicated are acceptable.

Five-Year-Old Boy Struck by Truck

Special to The Star

GALION, Oct. 29 — Randall Stockwell, 5-year-old son of Mr. and Mrs. Arthur Stockwell of Blooming Grove, suffered a fractured collar bone when he was struck by a truck, Thursday afternoon. The accident happened about a half-mile east of the village.

It is believed the boy did not notice the approaching gravel truck and was in its path when the truck came over an incline. The boy was playing near a bridge where construction is being completed. He was treated at City Hospital.

Saturday, was fined $10 and costs when he pleaded guilty in Municipal Court to not having proper plates on his car.

UMT

(Continued from Page 1)

ommended be approved "without delay" when Congress reconvenes next January.

It added, however, that uncertain world conditions — notably the situation in Korea—make it impossible to forecast when the proposed training program could be started.

Continuing Danger

But a start at the earliest practicable time is imperative, the commission declared, because "the clear prospect is that the present generation must live in danger for many years."

An enemy today can strike directly at the United States by sea or air, so "the American people must be prepared, like their forbears who pushed the frontier westward, to meet a savage and deadly attack at any moment."

The commission said "the return to frontier conditions demands a frontier response"—to have every physically and mentally able youth 18 years old trained for six months in the "art of survival and self defense."

The group added that Congress' approval of the principle of UMT "reflects the reality that all free society is engaged in mortal struggle with Soviet communism."

Provisions of Law

The present law provides that the Senate and House Armed Services Committees will have 45 working days to study and act on the commission's recommendations after Congress reconvenes Jan. 8. Any legislation sent to the Senate or the House by the committees will have privileged status, which means any member could call the measure up for a showdown vote at any time.

Senator Russell (D-Ga), chairman of the Senate committee, and Rep. Vinson (D-Ga), who heads the House Armed Services unit, are on record in favor of putting UMT into effect as soon as possible.

However, Rep. Arends (R-Ill), another member of the House committee, told a reporter he is "not convinced that the country wants peacetime military conscription." He indicated that Congress shouldn't seriously consider the issue while men still are being drafted.

Liberals Reject Churchill Offer

LONDON, Oct. 29—(AP)—The Liberals conditionally promised their six House of Commons votes last night to bolster the narrow Conservative majority, but Liberal leader Clenton Davies said "no" to a cabinet bid from prime minister Winston Churchill.

The Liberals said their six members would swell the Tories' 18-seat majority on "measures clearly conceived in the interest of the country as a whole."

Davies, however, after a second week-end conference with Churchill, announced he "felt unable to accept" the Conservative Leader's offer of a post in the cabinet the new prime minister still was forming.

Another 30-day permit suspension for the Acme Grill at 153 N. Main St. was also withheld pending good behavior. Permit holder Loukas Fousianis was charged with directly or indirectly purchasing liquor for resale without the consent of the Department of Liquor Control.

Seven other suspensions throughout the state were also scheduled to begin today, The Associated Press reported today from Columbus.

They are Majors Reginald R. Myers, 31, Boise, Idaho, and Carl L. Sitter, 29, Pueblo, Colo. Both now are on the staff of the Marine Corps Schools, Quantico, Va., where officers are trained

The Marine Corps said they helped break a trap set by overwhelming numbers of Chinese Communists and achieved "incredible victories in the desperate Chosin Reservoir fighting last winter."

Myers and Sitter bring to six the number of Marines who have won the medal in Korea.

The widow, Mrs. Isabelle A Gentile, clutched another son and wept quietly as Don Jr., unveiled a portrait of the Ohio major who shot down 32 German planes. Gentile was killed in a training flight last January.

The Major's parents, Mr. and Mrs. Patsy Gentile of Piqua, O., also stood by at the dedication of Gentile Air Force Depot near here.

Egypt Protests Suez Shooting

CAIRO, EGYPT, Oct. 29—(AP)—A British military spokesman said today an Egyptian woman was killed and her male companion wounded by British troops who fired on their automobile as they tried to crash through a British roadblock in the embattled Suez Canal zone.

The spokesman said an Egyptian officer immediately made an official protest against the shooting, which occurred last night after a weekend lull in the canal zone.

Egypt meanwhile moved toward a war footing.

The Egyptian state council, which has the status of a supreme court, yesterday approved general mobilization of manpower and drafting of all Egyptians between 18 and 50 "in case of war or threat of war."

It also provided for setting up a high council of war headed by Prime Minister Mustapha El Nahas Pasha.

New Atomic Test Made In Nevada

LAS VEGAS, Nev. Oct. 29 — (AP)—A medium-sized atomic bomb exploded over the Nevada desert yesterday, and rumbles were heard more than 200 miles away.

The bomb, dropped from a B-29, outshone the morning sun for a few seconds. The time was 7:20 a.m. PST (10.20 a.m. EST).

It was the second after-dawn nuclear test put on by the AEC after much delay because of weather and various operational difficulties.

Unlike the pallid baby blast last Monday, yesterday's detonation caused a rumble heard as far away at Big Bear, Calif., 225 miles away, and St. George, Utah, 135 miles off. An aviator flying at about 11,000 feet over Kaibab Forest, Utah, reported seeing the flash some 200 miles distant. It also was widely seen in Las Vegas and other Southern Nevada communities, but was felt by comparatively few persons. There was no damage reported.

The AEC reported finding a small amount of radiation in the Beatty-Lathrop Wells area, about 35 miles southwest of the Yucca Flat test site, but it was termed unharmful to humans, animals or crops.

Yesterday's bomb — unofficially the 19th major nuclear explosion by the U. S.—flashed white, then glowed red for perhaps two seconds before sending up a column of smoke and the familiar atomic mushroom.

Veterans and Draftees Guide —

—By—

Major Thomas M. Nial

VIRTUALLY ONE entire age group — about 1,052 million 18-year-olds—will fill out draft questionnaires in the months just ahead.

You still must register for the draft within five days after you turn 18 But now your board may classify you by the time you are 18 years and six months old instead of waiting until you hit 19

Some boards are loaded up with work, though, and aren't down into their 19-year-old group yet. They may not be classifying 18-year-olds for a while But if you're 18, you're sure to get your questionnaire sooner or later

The front page of the form tell you the date by which you must return it normally 10 days after it was mailed to you (not 10 days after you get it) Read the questionnaire carefully It may be the most important form you will fill out in your life, especially if you re in line for a deferment or exemption If there was ever a time to be accurate about dates and other information, this is it

* * *

TO BACK UP statements about such things as your family status or present occupation, you may send additional information

For example, there's a line for a description of your job You may want to use more than a line if you think you rate a 2-A occupational deferment Write a fuller description on a separate sheet and send it along with the questionnaire.

If you have dependents, it would be well to send some proof with the questionnaire Certified copies of your children's birth certificates should be sent If your wife is pregnant, get your doctor to certify that she expects a child and send that with the questionnaire (When the child is born, send the board a certified copy of his birth certificate)

If you have other dependents, like parents, have them make a statement explaining how and why they're dependent on you Send this with the questionnaire A statement from some appropriate disinterested person, like your family minister or doctor, would help the board decide on your classification in such a case

* * *

IF YOU WANT help filling out the questionnaire, look up your government appeal agent Every board has a government appeal agent Get the name and address of yours from your local board It's his job to advise you on your rights under the Selective Service Law and regulations.

For example, there's a line toward the end of the questionnaire that asks what classification you think you should be in Your government appeal agent can advise you whether the facts given in the questionnaire might possibly rate you a deferment and if so, what classification you should enter on that line.

Remember the questionnaire is the beginning of your draft record After it's sent in, keep your board informed in writing of any change in address or status that makes information in the questionnaire out of date.

* * *

WHAT HAPPENS if you don't return the questionnaire within 10 days after it's mailed to you? Draft regs say the board can then classify you 1-A automatically.

If you know you don't rate a deferment, why bother sending the questionnaire? First, draft regs say you must and the regs have the force of law Second, before you're inducted something might happen to rate you a deferment or exemption but you might not get it because you hadn't complied with the regulations

UPPER SANDUSKY.—A successful Wyandot County 4-H Club year was brought to a close Oct. 22, 1951, at the 4-H Achievement program held in the auditorium in the Upper Sandusky High School.

Many special awards were presented to club members representing every section of the county. Miss Donna Leightey, president of Junior Leadership, welcomed the 4-H club members, their parents and friends to the evening's program.

There are 32 4-H clubs in Wyandot County, and each club was represented. During roll call by Shirley Young, Jr. Leadership Secretary, the membership of the individual club was given, and the number present.

Love Triumphant

By ADELE GARRISON

"Aha!" Harry Underwood exclaimed as he and Lillian came back from the corridor door and sat down in the chairs which Dicky inexorably pointed out to them. "My thumbs are twitching. Something's doing!"

"Yes, my sapient friend," Dicky told him. "Something's very much doing, and you ought to be hep to it, so you'll know how to act if the dirt accidentally rolls off the dustpan. My spouse will brief you. She knows all the questions and answers."

I accepted his dictum, and quickly told them of Mildred's problem, and of my father's promise to set everything right in the morning.

"Wanna bet I'm not hep to what the old boy has in mind?" Harry Underwood drawled when I had finished. But he was looking at Dicky.

"Of course you are," Dicky returned. "So it Lil, and so are me and Madge. But we're not sounding off any guesses until after the Chief makes his own broadcast in the morning."

"When we can all pipe—'I knew it all the time,'" the big man said. "But if we're guessing right, I'll intone a psalm of thanksgiving. That poor girl needs a break. But have you thought how Bill is going to react to the plan which the Chief is cooking up?"

Dicky sent a quick, startled look at me; then his lips set in a straight thin line. When he opened them, his voice fairly tinkled ice chips.

"He'll react properly, or he'll have a session with me that he'll remember," my husband declared, stressing every word, and Lillian grinned at him.

"You'll dislocate your wings, Dicky-bird, if you flop them any harder," she told him. "And you're getting all steamed up for nothing. You said your father wasn't coming until after breakfast, didn't you, Madge?"

"That's the plan," I answered.

"Well, then," Lillian demanded, "why the ruckus? Bill will be gone back to New Haven, and Madge can guide Mildred how best to present the plant to Bill. She's had plenty of practice buttering you up to bring you to reason in her long marital martyrdom."

"I'll let the base insinuation slide," Dicky told her loftily, "because of the relief your reminder gives me. It wouldn't have been so hot to have Bill get the news head on, with everybody listening in."

"No, it wouldn't," Lillian agreed, and then, when I'd brought them up to date on all the details of the problem they had missed, we said our good nights, and went to our rooms.

Dicky gave a a keen, appraising look when our door had closed behind us.

"Sit down in that chair, and tell me where your night things are," he said. "You're utterly done out. Don't you dare stir. I'll be back."

He went into the bathroom—and returned with a washcloth wrung out of tepid water, and a towel. He wiped my face with the wet cloth, then dried it tenderly with the towel. After repeating the process on my hands, he tossed the towels on the register and took off my shoes and stockings. Then he deftly helped me get out of my day clothes and into my night gown. He had turned down the bed covers on his way to the bathroom, and when I was ready for bed, he lifted me and deposited me in the bed, pulling the covers up over me.

"Dauntless Dick!" he intoned, as he straightened himself and pointed a laudatory finger at his chest. "Never turned a hair nor missed a breath! And you're a good five pounds heavier than you were when I carried you over the threshold."

DRIVER FORFEITS BOND

Richard Clum of Marseilles forfeited a $25 bond when he failed to appear Saturday in Municipal Court. He was arrested Friday night by the county sheriff's office on a charge of failure to register a motor vehicle. The arrest was made on County Road 56.

The impact of this indiscretion in print will be used in Western Europe as well. Aneurin Bevan, the left-wing leader of the British Labor party, can use it to show his followers that we are "leading" the British people into war. It can be used by every "neutralist" in France to discredit American aims. In Britain and in France there is plenty of talk already that the United States is not arming for peace but for war. That falsehood will be believed by more people now.

I will not speculate on what journalistic or publishing purpose has motivated this effort. It is sensational, to say the least, and it will be bought and read. Certainly such a terrible warning is not needed by the American people. For the Congress just adjourned has voted the vast sums asked by those who are preparing our defenses. And the people are behind that action by their representatives.

• • •

JOURNALISM has a purpose far more important than the stimulation of emotions or newsstand sales. It is to lead opinion wisely. Moreover, it is properly to portray our national purposes, our Government, and our culture to other countries. This specimen will not meet that test. It is not responsible journalism. For it does not represent the true purposes and feelings of the American people.

Ten Week-End Accidents On Patrol List

Six Area Mishaps Occur Saturday, Four More Sunday

Four accidents Sunday and six on Saturday were reported by the state highway patrol.

Three cars were involved in an accident which occurred on Route 4, about 1½ miles north of Route 23, at 5:40 p.m. yesterday.

Jack Bevan, 31, of 525 Milburn Ave. was attempting to pass Harold E. Scheitler, 18, of 519 Lee St. when he saw a car driven by Wayne G. Schifer, 29, of near Marion approaching from the south. He scratched the left side of Schifer's car and struck the left rear fender of Scheitler's car in an attempt to cut back into the line of traffic. Damage to the cars was minor.

Cars driven by Paul E. Campbell, 50, of Columbus and Roy H. Blue, 8, of near Richwood were considerably damaged when they collided yesterday at 4:40 a.m. on Route 739, about 3½ miles west of Green Camp.

Blue was arrested on a charge of driving to the left of center and was cited to appear today in Marion Municipal Court. His nose was broken and cut in the accident.

Paul Campbell's son, Paul Jr., 7, suffered a bruised forehead and cut lip.

Autos Damaged

The left rear bumper of a car driven by Gerald N. Taylor, 33, of Caledonia caught the front grill and radiator of a car driven by Cecil C. Pugh, 57, of near Marion as Taylor attempted to turn north into a private drive from Crawford County Road 19, about a mile east of the junction of Route 98, Sunday at 9:50 a.m. Both cars were traveling east, and Pugh was trying to pass Taylor when the accident occurred.

The grill and radiator of the Pugh car were damaged. Taylor's car was damaged only slightly.

A car driven by Sandy Dublo, 56, of Cleveland was slightly damaged when it ran off the road on Route 4, about 3½ miles south of Bucyrus, Sunday morning at 12.45 a.m.

Cars driven by Paul Virgil Burnell, 45, of near Mt. Gilead and John Foltz, 74, of Mt. Gilead collided at the intersection of North Main St. and Park Ave. in Mt. Gilead Saturday at 5:10 p.m. The front ends of both vehicles were demolished.

Driver Fined $10

Foltz was arrested on a charge of failing to yield the right of way, and was fined $10 and costs by Mayor R. R. Bennington of Mt. Gilead. Burnell received a bump on the head and Foltz was bruised on the right arm. Both were treated and released by a Mt. Gilead doctor.

Peter S Moran Jr., 17, of Oil City Pa., lost control of his car in an attempt to pass another car and struck a guard rail on Route 42, about half a mile south of Mt. Gilead, at 7 p.m. Saturday. The right side of the car was extensively damaged. Moran suffered a hand laceration and a bruised knee.

A car driven by William G Fisher, 69, of near Mt. Gilead struck the right side of a car driven by Robert Richey, 26, of 455 Fies Ave. at the intersection of Routes 95 and 314 in Chesterville at 3:35 p.m. Saturday. Minor damage to the vehicles was reported.

Car Runs Off Road

William C. William, 18, of Bucyrus ran his car off the road and damaged a portion of a fence belonging to Emil Gaeter of Crestline Saturday at 4:45 a.m. half a mile west of Crestline on Route 30-N. The car was demolished.

Cars driven by Herman L. Harden, 25, of near Galion and Francis H Craner, 60, of Galion collided Saturday at 1.40 p.m. about a mile east of Galion on Route 30-S, near the intersection of Route 661. Minor damage to the cars was reported.

Albert S. Fogelson, 36, of Cleveland lost control of his car and ran through a guard rail as he attempted to pass a Greyhound bus on a curve of Route 30-S, three miles west of Iberia Saturday at 6:15 p.m. The front and right side of the car were demolished.

Special to The Star

CARDINGTON, Oct. 29 — Mrs. Lola Montez Stout of Cardington and her cousin, Carleton Gibbs of Washington C H, a former resident of Marion and Mt Gilead, are the grandchildren of a Revolutionary War soldier.

They are among the very few persons now living whose grandfathers were soldiers in the fight for freedom which began 175 years ago

Their grandfather was Daniel Gibbs Sr, who was born in 1761 and lived to be nearly 100.

Enlisted in 1777

Daniel Gibbs enlisted in the infantry in 1777 and served under several captains during the Revolutionary War out of New Jersey. For this service he was rewarded with a land grant of 100 acres and came to Ohio some time after the war ended. He settled in what was then Franklinton and is now Columbus. He met Miss Margaret Sorden, a native of Kentucky, and they were married in 1824. The Gibbs' had 11 children, nine living to adulthood.

At the age of 64, Mr Gibbs became the father of Daniel Jr, and at 84, he became the father of Sarah Ann.

Daniel Jr, married Lydia Patterson in 1865 and they were the parents of Carleton Gibbs.

Sarah Ann married Samuel C Burke in 1866 and they were the parents of Mrs Stout.

Only Children Living

Of all the progeny of the Gibbs' children, none, according to the knowledge of Mr. Gibbs and Mrs Stout, are living except themselves and their children.

Mr Gibbs makes his home with his daughter, Mrs. Frances Benson and Mrs. Stout's son, Verne, lives with her.

Mrs. Stout, now 84, and Mr. Gibbs, now 73, are both in reasonably good health. Mrs. Stout is active in American Legion Auxiliary, D. A. V., church and other organizations.

The Revolutionary War soldier and his wife moved to what was then Marion County, the Shawtown community, now a part of Morrow County, in 1835. Mr. Gibbs, who died in 1861 when Mrs. Gibbs was only 59, is buried in the Cardington Fairview ("Shawtown") cemetery. Soon after, Mrs Gibbs moved to Cardington to live with her children. They were members of the Fairview ("Shawtown") United Brethren Church

Mr. Gibbs has been visiting Mrs. Stout in Cardington.

Your Good Health

By DR. HERMAN N. BUNDESEN

Heart Disease Due to Nutritional Deficiency

Strange as it may seem, heart failure can result from long-standing nutritional deficiencies. This underscores the need for proper eating, particularly in view of the fact that the only remedy for this type of heart disease is in the eating of an adequate and well-balanced diet.

Until a few years ago, all cases of nutritional heart disease were believed to be due to a deficiency of one vitamin—thiamine or B-1. Recently, however, a number of cases have been observed where symptoms were different from those in heart disease due to lack of thiamine, and where they were not relieved by its administration.

Apparently, these cases are due not to a lack of one or two food substances, but to many, since no single drug or vitamin has been found capable of controlling them.

One of the outstanding symptoms of nutritional heart disease is a generalized swelling, especially of the legs, trunk, arms, and face. There is severe shortness of breath, and the patient may sleep with his head raised on several pillows.

The circulation of the blood is slowed and the liver is almost always found to be enlarged and tender.

There may be fleeting pains of a neuritic type in the arms and legs, alternating with "pins and needles" numbness. Cracking at the corners of the mouth is very common.

The heart size is greatly increased and there may be albumin and pus in the urine. An electrocardiogram usually shows heart damage. Tests of the liver reveal that the liver is undergoing cirrhosis or hardening, indicating that not only the heart but other organs as well are beginning to show effects of lack of proper food.

Almost immediately after a well-balanced diet is instituted, some improvement occurs if the disease has not progressed too far. The swelling or edema disappears, the heart becomes stronger, there is weight loss, and the liver becomes less tender.

The drugs used for other types of heart disease do not help a great deal in this condition. The restriction of salt in this type of heart disease is of no help. The only treatment which seems to be of benefit is the institution of a well-balanced diet, and the administration of adequate quantities of vitamins.

High Schools Get Tax Break On Tickets

The nation's high schools will get a tax break after Nov. 1.

A 20 per cent federal tax on admissions to athletic contests will be eliminated then.

Designed to help schools meet expenses, the elimination of the tax will increase ticket "take" by the 20 per cent schools no longer will have to pay the government.

The tax on season tickets, however, has already been paid and won't be refunded by the government.

Elimination of the tax affects only high schools. Colleges will still have to pay.

Elimination of the tax was one of the relatively few tax reductions or removals in the $5,691-000,000 tax increase bill signed by President Truman on Oct. 20. The Associated Press reported.

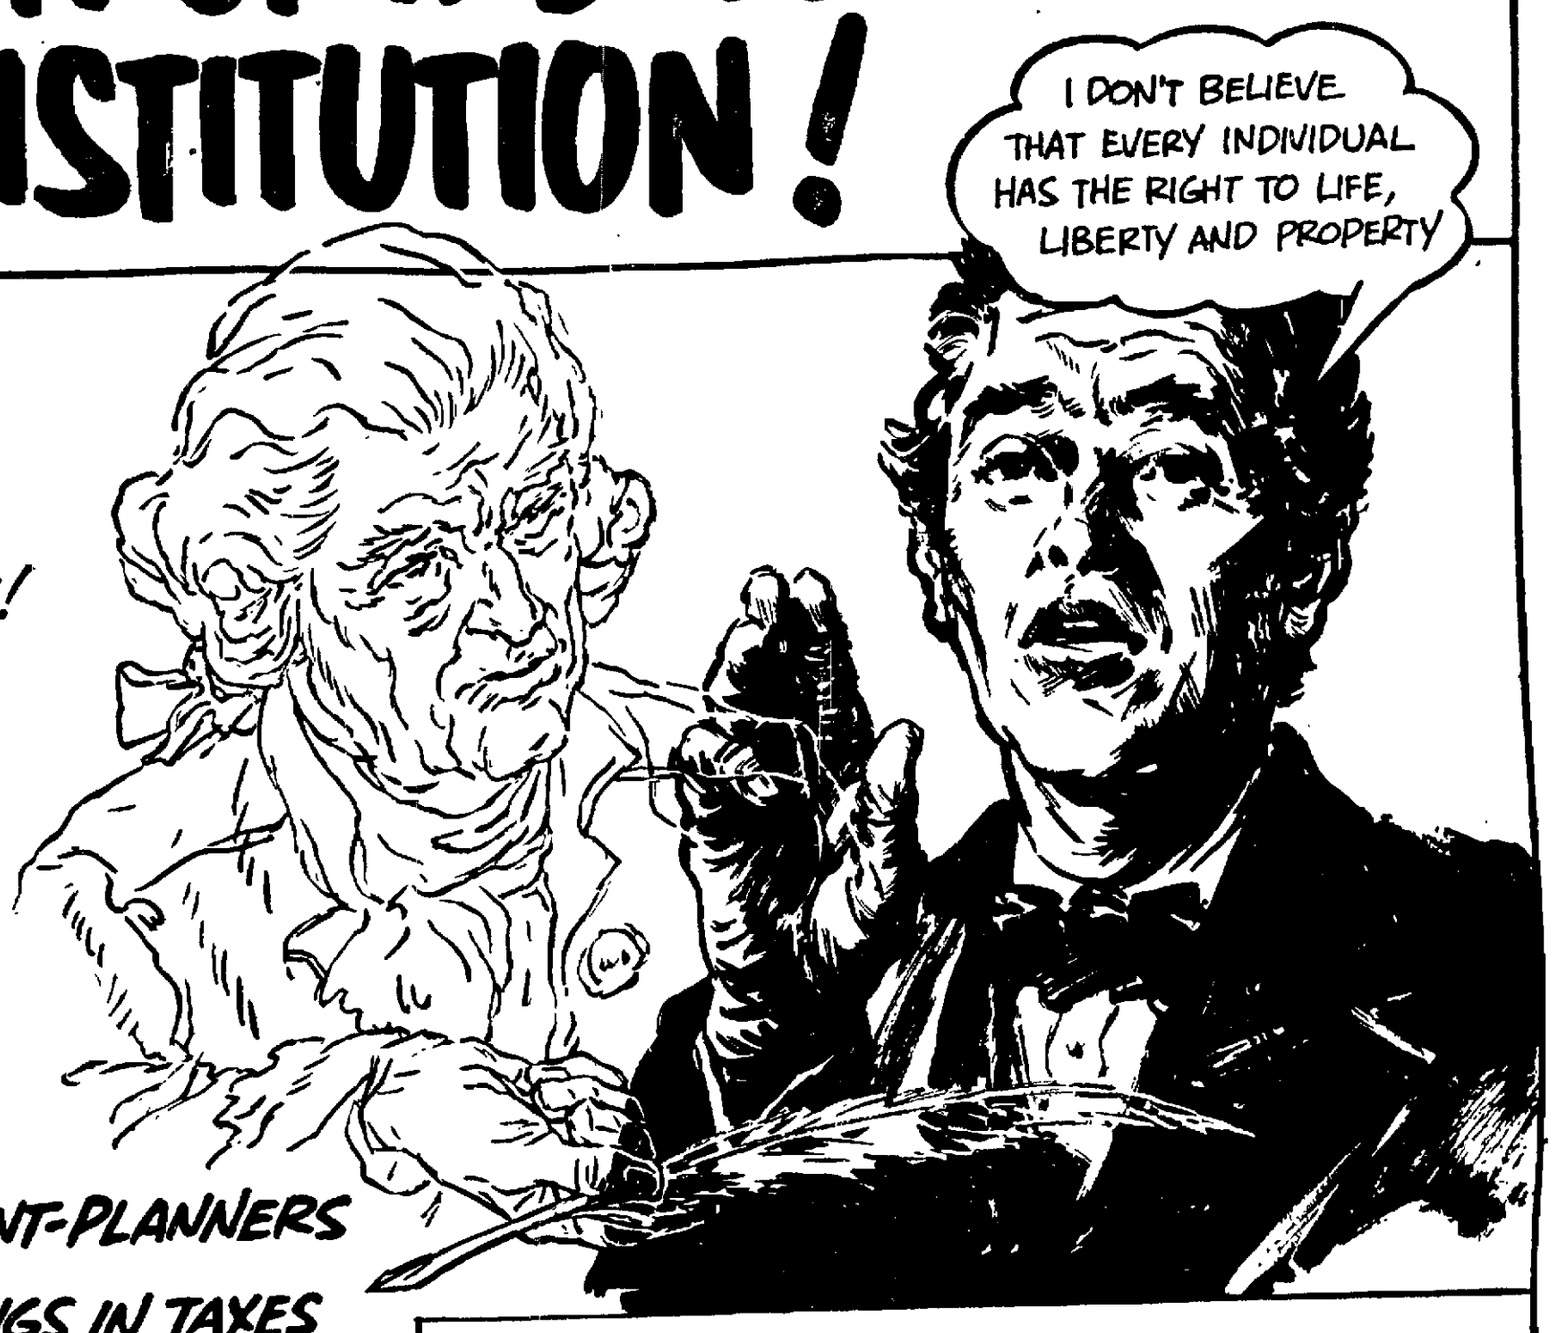
TODAY, 2 OUT OF 3 AMERICANS COULD NOT HONESTLY SIGN OUR DECLARATION OF INDEPENDENCE OR OUR CONSTITUTION!



IN A RECENT SURVEY 2 OUT OF 3 AMERICANS FAVORED GOVERNMENT MEASURES WHICH FELL WITHIN THEIR OWN DEFINITION OF SOCIALISM *THEY WERE UNKNOWINGLY AGAINST LIBERTY!*

EARLY AMERICANS BELIEVED THAT EVERY PERSON SHOULD BE PROTECTED IN HIS GOD-GIVEN RIGHTS TO LIFE, LIBERTY AND PROPERTY.

TODAY, 2 OUT OF 3 AMERICANS UNKNOWINGLY FAVOR LAWS WHICH DEPRIVE SOME PEOPLE OF THEIR LIBERTY AND PROPERTY FOR THE SPECIAL BENEFIT OF PRIVILEGED GROUPS!

THESE LAWS PERMIT GOVERNMENT-PLANNERS TO TAKE PART OF YOUR EARNINGS IN TAXES FOR THE SPECIAL BENEFIT OF OTHER PEOPLE!

IN FISCAL YEAR 1950—

14 BILLION DOLLARS OF YOUR EARNINGS WAS SPENT TO PROVIDE SPECIAL AIDS AND SERVICES TO PRIVILEGED GROUPS.

THIS WAS NEARLY TWICE THE AMOUNT OF ALL PERSONAL SAVINGS OF ALL AMERICANS IN THE YEAR 1950!

Copyright 1951, F. W. Oversch

IF WE HONESTLY BELIEVE IN LIBERTY, WE MUST UNDERSTAND AND INSIST ON THIS MORAL PURPOSE FOR OUR GOVERNMENT!

EVERY INDIVIDUAL has certain natural rights – the right to LIFE, the right to LIBERTY, the right to earn and use PROPERTY as he pleases. We call these rights "natural" because they are God-given. Would God have created each individual with different abilities and preferences if these differences were not to be expressed freely? And isn't property an extension of the different talents and abilities with which individuals are born? Thus these natural rights are supremely important and individuals have the right to defend them from the interference of other individuals – even by using force if that is necessary.

So men create a common force – a government -- to protect their individual God-given rights at all times. Therefore, the moral purpose of government is this:

"TO MAKE AND ENFORCE LAWS WHICH PROTECT EVERY INDIVIDUAL'S GOD-GIVEN LIFE, LIBERTY AND PROPERTY FROM THE INTERFERENCE OF ANY OTHER INDIVIDUAL OR GROUP – AND THESE LAWS MUST ALSO PROTECT THE PEOPLE FROM GOVERNMENT ITSELF."

Government must use force to protect the rights of its citizens effectively. So while government is a necessity, it is at the same time dangerous. The danger is that government may use its power to take away the rights of citizens, by depriving them of their liberty or by forcing them to do things with their property that they would not do voluntarily. When this happens the original moral purpose of government is perverted and government becomes immoral.

GUIDE TO FREEDOM
JUDGE ALL LAWS BY ASKING—
"DOES THIS LAW PROTECT EVERY INDIVIDUAL IN HIS GOD-GIVEN RIGHT TO LIFE, LIBERTY AND PROPERTY FROM THE INTERFERENCE OF ANY OTHER INDIVIDUAL OR FROM GOVERNMENT ITSELF?"

Browns Hold Off Giants for 14-13 Victory

FINGERTIP TACKLE. Back Jerry Witt (49) of Wisconsin eludes the fingertips of Northwestern Halfback Dick Allan who is flying through the air in an effort to halt his advance in first period of game at Evanston, Ill. At left is Northwestern End Cincy Rich Wisconsin won, 41-0.

Missed Extra Point Costs Visitors Game

By BUD SPRUNGER

CLEVELAND, Oct. 29—(AP)—Cleveland's pro football champs beat the New York Giants and moved into first place mainly because Otto Graham's passing was so accurate, Coach Paul Brown said today.

"There may be some argument about that," the coach of the Browns added, "a lot of people will say the game was won by the defensive work of Guard Bill Willis and there's no doubt Willis turned in a terrific performance.

The guard—aided by linebacker Tony Adamie—broke up a number of Giant scoring attempts in the second half of the game won by the Browns, 14-13.

"Graham's passing was so accurate the Giants had to give up their 'umbrella' defense and put more men into the line to try and hurry him," Brown explained. The "umbrella" got its name from the way it looks as Giant defenders spread out chasing receivers.

TD Pass

Graham — the quarterback—pitched a touchdown pass good for 64 yards to Dub Jones on the Brown's first offensive play.

That was the first touchdown the Browns earned in four games against the Giants Their only previous one came on a fluke last year.

"The pass was just the reverse of what we normally do," Brown continued "Usually our receiver runs in a 'Z' pattern, catching the ball as he heads towards the sidelines."

This time Jones feinted toward his left sideline, cut back over center and caught the ball. Then he continued toward the right sideline, got the help of a key block by Emerson Cole, and raced up the right sideline to the end zone

Tom Landy evened the score by intercepting a Graham pass and running 19 yards over the Cleveland goal. But before the first period ended, Graham put the Browns back into the lead with a scoring pass to End Dante Lavelli after Hal Herring had recovered a fumbled punt for Browns on the Giants' 28.

Spotted Receiver

Chased by a pack of New York's defensive linemen, the quarterback saw Lavelli motioning from the end zone for a leading pass. He flipped the ball so that Lavelli—closely guarded—had to stretch way out ahead and nab it just before he ran over the sideline out of the end zone.

Lou Groza's second conversion proved to be the margin The Giants scored again in the second period on a 29-yard aerial from Charlie Conerly to Bob McChesney but Ray Poole missed his second conversion attempt.

Steve Owen, the losing coach, explained the miss as the result of a bad pass from center. "Conerly had to reach for the ball and by the time he placed it, Poole had broken his stride," the coach said. The ball went under the crossbar.

There was no scoring in the second half when a strong, swirling wind blew up and the Browns quit their long passes as too dangerous.

B.G., Toledo Prexies To Study Brawl

BOWLING, Green, O., Oct. 29—(AP)—The player-fans slugfest which followed Saturday's Bowling Green-Toledo football game will be investigated by presidents of both schools

Dr. R. W. McDonald, Bowling Green president, said yesterday he and President Asa Knowles of Toledo have agreed to conduct separate inquiries into the brawl

The incident, which came after Toledo beat Bowling Green, 12-5, resulted in about 20 black eyes and numerous cuts and bruises. Both dressing rooms looked like slaughter houses after the melee.

There was no indication the two schools would again break off football relations. They did that after a similar brawl in 1934, and only in 1948 did tempers cool enough to resume play.

Stories of how Saturday's fight started varied.

Dr. McDonald said a Toledo man "deliberately struck" Tackle Darrell Clay of Bowling Green after the game was over.

Toledo Coach Don Greenwood said Tackle Lloyd Parkson of Bowling Green threw an illegal block on Toledo Back Mel Triplett after the whistle had blown to stop the play in the final minute of the game.

Head Linesman Roy Wisecup told newsmen the block was legal and the whistle had not blown. He had this comment about the brawl:

"When a football game is over I don't hang around to referee any fight."

Hornets Defeat Johnsville, 30-18

Claridon was only one game away from an unbeaten season and the Double-M League six-man title today after coming from behind at halftime to defeat Johnsville, 30-18, Saturday night at Mt. Gilead.

Coach Herb Bennett's Hornets need only to win over LaRue's Indians at LaRue Friday night to clinch the crown. LaRue won the championship last season.

Once again it was the passing and running of Ray Price that led Claridon to victory. The 205-pound back scored twice on plunges and tossed two TD passes to End Jack Griffith The latter also accounted for six points by drop-kicking extra points.

The game was played on a rain-drenched field.

Illini, Wolves In Big Ten's Top Contest

CHICAGO, Oct. 29 —(AP)—Undefeated Illinois meets the team of the terrific bounce-back, defending champion Michigan, in the key battle of the Big Ten football season at Champaign, Ill., Saturday.

Illinois notched two of its five straight wins in conference play, while Michigan also has a perfect Big Ten record with three consecutive decisions over Indiana, Iowa and Minnesota The victor will emerge an overwhelming title favorite.

The Wolverines romped over Minnesota, 54-27, Saturday for the most points ever scored against the Gophers by a Big Ten foe.

Illinois, which loosed Ace Halfback Johnny Karras for all three touchdowns in Saturday's 21-0 win at Indiana, possibly has more incentive, scented with attar of roses, in the big Champaign showdown.

Michigan which appeared at Pasadena last New Year's Day and dumped California, 14-6, is ineligible for a Rose Bowl encore But the Illini can return to the 1947 scene of their 45-14 triumph over U.C.L.A.

Nobody will be pulling more for a Michigan win Saturday than Wisconsin's teeming Badgers, who last week-end pulverized previously unbeaten Northwestern, 41-0. Wisconsin now has a 2-1-1 conference record. Perhaps the Badgers were out of the title running, but they have an eye on the Rose Bowl. They play a seven-game loop card against six for Illinois

Wisconsin Saturday is host to Indiana (0-2), while the two other conference clashes include Minnesota (0-2) at Iowa (0-3) and Northwestern (1-1) at Ohio State (1-1-1). Purdue (1-1) entertains Penn State in a non-loop tilt.

The list includes seven of the top 10 teams in the Associated Press poll.

Heading the field with seven victories each, after a dozen teams were either beaten or tied over the weekend, are Cincinnati and the Pittsburgh (Kas.) Teachers. Pittsburgh, the only unscored upon team a week ago, finally yielded a touchdown in beating St. Benedicts of Kansas.

Top teams still on the select list include: 1—Tennessee; 2—Michiga State; 3—Georgia Tech; 4—Illinois; 5—Maryland; 7—Baylor; 8—Princeton.

Dream Comes True As Logan Scores Point for O.S.U.

COLUMBUS, O., Oct. 29 —(UP)—Ohio State Coach Woody Hayes made a dream come true for star Tackle Dick Logan in Saturday's route of Iowa.

Logan had been waiting to score at least once during his college career but tackles do the bruising work instead of the glamorous passing and running

Hayes took care of his star, however. He told Logan to line up as an end as the Buckeyes got set for a point after touchdown play. Then Logan raced into the end zone, open because nobody bothers tackles in such situations Vic Janowicz, set to kick, picked up the ball and tossed it to Logan, and the Mansfield senior's hopes had come true. Logan had his one point in the records.

Bucks Meet Wildcats After Trouncing Iowa

By FRITZ HOWELL

COLUMBUS, O., Oct 29—(AP)—Ohio State's Bucks, back on the victory trail with a resounding 47-21 win over Iowa Saturday, meet Northwestern's once-beaten Wildcats this weekend in the feature of a 23-game slate involving Ohio college grid teams.

The 'Cats, after pushing aside four foes, were swamped, 41-0, by Wisconsin Saturday—the same team tied, 6-6, by the Bucks earlier in the campaign.

Tony Curcillo, the burr-headed signal-caller from Elyria, was Ohio's No. 1 man as the Hawkeyes were subdued by an overwhelming score for the second straight year. Tony was shifted to fullback at the start, but returned to his old quarterbacking chores when Bill Wilks was injured in the first session.

Passes for 4 TDs

From then on he was sensational, scoring two touchdowns, passing for four others, and eating up 292 yards on passes as he completed 10 of 14. His record equalled that of All-America Vic Janowicz in the 63-21 victory a year ago when Vic scored twice and tossed aerials for another quartet of markers. Janowicz also is from Elyria, where the two learned their basic football under Ike Trubey.

Cincinnati clung to the statewide lead by whipping Texas Western 53-18 for its seventh straight. Muskingum suffered its first loss in a surprising 21-20 setback at the hands of Denison, while Otterbein and Western Reserve came up with their first victories of the campaign The Otters whitewashed Marietta 22-0 in an Ohio Conference fray, while Western Reserve was a 15-12 winner over Washington at St. Louis.

Xavier of Cincinnati spoiled Dayton University's unbeaten season record yesterday with a 20-0 drubbing. It was Xavier's sixth win against no losses and one tie Dayton had won five.

The Saturday schedule:

Northwestern at Ohio State, Ohio U. at Toledo, Bluffton at Defiance, Ashland at Findlay, Muskingum at Marietta, Otterbein at Hiram, Ohio Wesleyan at Mount Union, Wittenberg at Denison, Manchester at Wilmington, Morris Harvey at Heidelberg, Ohio Northern at Capital, Case at Baldwin Wallace, Kent State at Bowling Green, Youngstown at St. Bonaventure, Hamilton at Kenyon, Central State at Morgan State, Cincinnati at Hardin-Simmons, Western Reserve at West Virginia, Buffalo at Miami, Wooster at Allegheny, Oberlin at

Solution of Saturday's Puzzle

One Man's Opinion

By WALTER KIERNAN

The price of Christmas trees will not be controlled this year but I don't know whether that will bring back Elliott with the pedigreed pines.

* * *

We bought a tree from Elliott a few years ago stamped "Inspected by Fala" and it was a dandy but next Christmas he had changed lines again.

* * *

There's one fellow you can meet on the street and ask, "What are you doing now?" and not get the answer, "Same old thing."

* * *

Last I heard, Elliott and John were being talked up for a radio program, possibly under the title "John's Other Brother."

* * *

Anyway, it's a little early to talk Christmas trees . . . We've still got weeks to figure what those Washington plum trees have cost us

Every day another character turns up who has been getting his tinsel at taxpayers' expense.
